Higher Education

May 2021 – Present

University of Colombo School of Computing

- Degree: B.Sc. Information Systems
- Current GPA 3.224

Work Experience

Creative Designer– Bitzquad (PVT) LTD November 2022 – May 2023

Successfully conducted a full range of designing responsibilities while actively contributing to company social media campaigns. I also worked as a Creative Designer for the DEinclusive project, which is an external project of a partner of Bitzquad.

Outreach Executive – StageYou.inc December 2022 – February 2023

Executed outreach campaigns to promote a metaverse project to a global audience.

Projects

VenomVerse – Snake Identification Mobile Application

June 2023 – Present

Venomverse is a mobile app that uses machine learning to identify snakes. The app is still under development. Venomverse is using Flutter for the frontend and .Net for the backend. I am responsible for developing the front end of the app using Flutter.

PetLife – Veterinary Clinic Management System

June 2022 – May 2023

As a team member, developed the user role "veterinarian" for the web-based veterinary clinic management system. Developed the frontend and backend of the user role using HTML5, CSS, Vanilla JS, and PHP. The system allows veterinarians to book appointments, manage inventory, and manage employees' leave requests. The system was developed without using frameworks.

Volunteering

- Chairperson of the Beach cleanup project Organized by the Rotaract Club, University of Colombo School of Computing.
- Marketing team volunteer of the Book Donation Project, Cancer donation project and the Blood Donation Project organized by the Rotaract Club, University of Colombo School of Computing.

References
